## CHURCHES OF CHRIST, SCIENTIST

"No man hath seen God at any time... Hereby know we that he hath given us of his Spirit." These words from the first epistle general of John are the Golden Text in the Lesson-Sermon on "Spirit" on Sunday in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.  
A Scriptural selection in the Lesson-Sermon includes these verses from the Acts: "Then Paul stood in the midst of Mars' hill, and said, Ye men of Athens, I perceive that in all things ye are too superstitious. For as I passed by, and beheld your devotions, I found an altar with this inscription, TO THE UNKNOWN GOD. Whom therefore ye ignorantly worship, him declare I unto you... For in him we live, and move, and have our being; as certain also of your own poets have said, For we are also his offspring." One of the correlative passages from Science and Health with Key to the Scriptures, by Mary Baker Eddy, states: "Pantheism and agnosticism may define Deity as 'the great unknowable'; but Christian Science brings God much nearer to man, and makes Him better known as the All-in-all, forever near."

## Biological Education May Be Offered By City Schools

Cooperation and support of professional men and women in working out a program looking toward the possibility of giving a "sane, clean biological education" to boys and girls in the secondary schools of the Los Angeles city school system is being considered by the board of education.

The matter was introduced at last Thursday's meeting of the board by Mrs. Margaret L. Clark, board member, who expressed the frank opinion that too few of the parents of today are either capable or willing to instruct their children in matters of sex.

"Too many of our children get their knowledge of these matters from the other youngsters in the wrong presentation," Mrs. Clark said. The matter was referred to Superintendent of Schools Vierling Kersey.

Shrubbery has been planted in front of all of the houses—and by this fall will bring about an almost complete transformation of the property.
